Introduction

The Northwind Traders Dataset contains business information about sales, customers, products, employees, and orders. It is used to analyse sales performance, identify trends, and understand customer and employee activities. Business insights help convert data into useful information for better decision-making, improving efficiency, and supporting business growth.

Dashboard

Screenshot

Purpose:

The main purpose of this dashboard is to analyse and monitor the overall sales performance of Northwind Traders. It helps users understand order trends, product sales, customer activities, employee performance, and shipping costs. It supports better business decisions by presenting important information in a simple visual format.

Key Components:

1. **KPI Cards:** Display important business figures such as Total Orders, Total Quantity Sold, Number of Customers, Average Freight, and Total Freight.
2. **Orders by Month:** Shows the number of orders received each month and helps identify monthly sales trends.
3. **Sales by Product:** Displays sales performance across different products and helps identify popular and high-performing products.
4. **Orders by Year:** Shows yearly order trends and helps compare business performance over different years.
5. **Sales by Category:** Compares sales across different product categories.
6. **Employee Performance:** Displays the quantity of products sold by each employee.

Interactive Slicers Available:

- **Year Slicers:** Allows users to view data for a particular year.
- **Region/Country Slicers:** Helps analyse sales performance across different geographical areas.
- **Category Slicers:** Allows users to view sales and quantity details for selected product categories.

Overall, the dashboard provides a clear view of business performance through KPI cards, charts, and interactive filters. It helps users compare results, identify trends, and gain useful business insights for better decision-making.

KPI Analysis

KPI (Key Performance Indicator) Analysis Provide a quick overview of business performance. It helps to monitor business performance, identify important trends, and support better decision making.

Total		**12,65,793.04**	**51317**

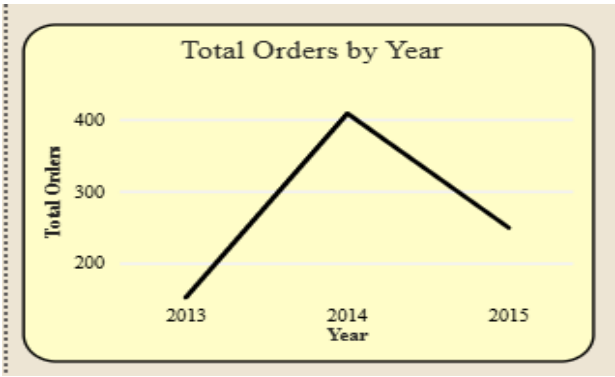

Particulars	Observation
Highest Selling Category	Beverages
Lowest Selling Category	Confections
Relative Performance of Category	Beverage performed the best by contributing a total sale of 1,41,396.74 and Confection recorded a least sale of 1,368.71

Key Insights

- Beverages is the highest-performing category, contributing the largest share of total sales.
- Confections is the lowest-performing category, indicating lower sales compared to other categories.
- Sales performance varies across categories, showing differences in customer demand and product popularity.
- The business can focus on improving low-performing categories through better promotions, product offers, and marketing strategies.

Monthly Order Trend Analysis

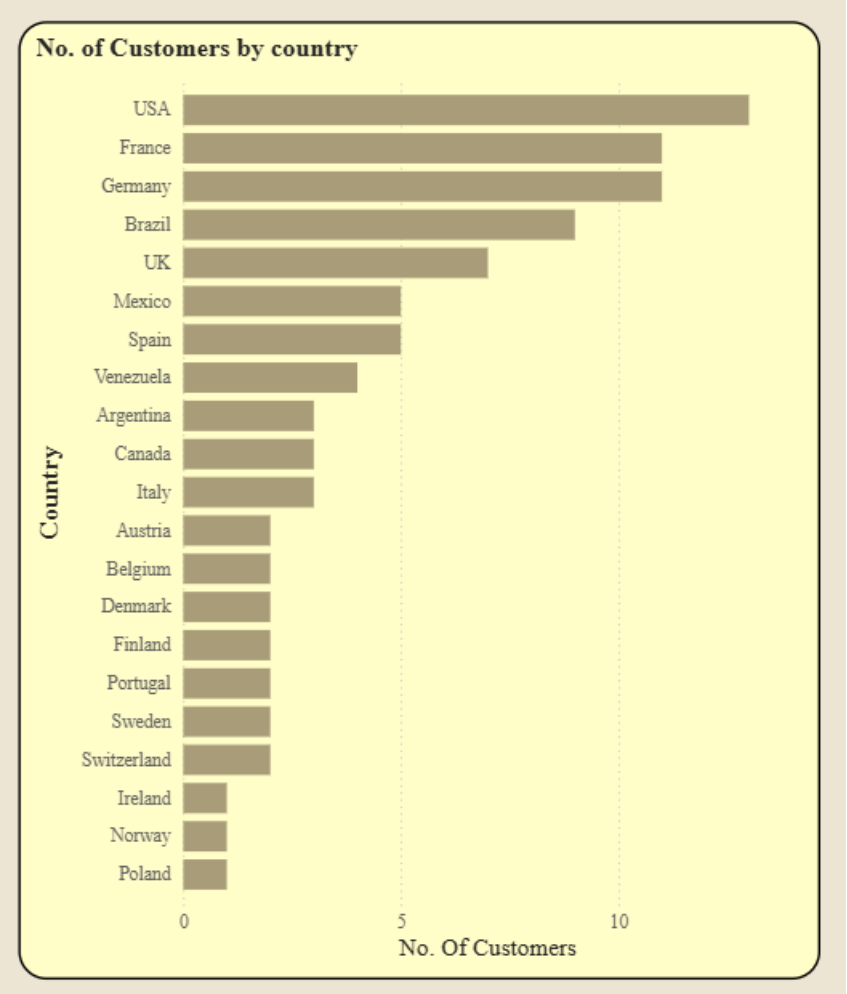

Particulars	Findings
Highest Order Month	March
Lowest Order Month	June
Overall Trend	Orders were higher during the beginning of the year, March and gradually decrease towards June, and then raise at end of the year

Observation

Northwind Traders received a total of 809 orders throughout the year. March recorded the highest orders, while June recorded the lowest. Order volumes fluctuated across the months, indicating changes in monthly customer demand.

Regional Analysis

Screenshot

- **KPI Change**

  KPI values change based on the selected year, country, and category.

- **Category Change**

  Selecting a category displays the sales and quantity details of that particular category.

- **Monthly Order Change**

  The Year and Country filters help analyse changes in monthly order patterns.

- **Employee Performance**

  The filters help compare employee performance based on the selected business data.

Region	Total Orders	Total Quantity Sold	Total Freight	Average Freight	No. Of Customer
Region 1 (Argentina)	14	304	595.05	42.51	3
Region 2 (UK)	56	3K	2.95K	52.75	7

Region	Business Insights
Region 1 (Argentina)	Recorded 14 orders and 304 quantities sold. It has lower freight costs and fewer customers.
Region 2 (UK)	Recorded 56 orders and around 3K quantities sold. It shows higher business activity, more customers, and higher total freight costs.

Employee Performance Analysis

Screen shot

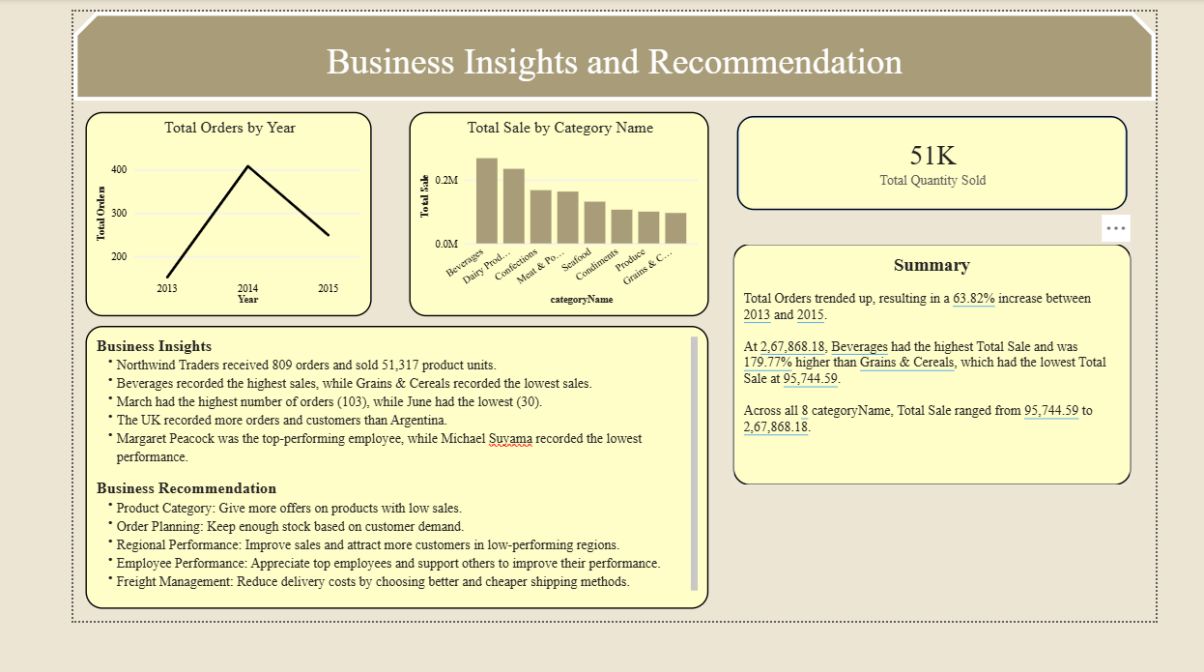

Top Performing Employee	Margaret Peacock
Lowest Performing Employee	Michael Suyama

Key Insights

1. Margaret Peacock is the top-performing employee, with the highest quantity sold
2. Nancy Davolio ranks second in employee performance.
3. Laura Callahan also shows strong sales performance, with more than 400 units sold.
4. Michael Suyama recorded the lowest quantity sold among the named employees.
5. There is a noticeable difference in sales contributions among employees.

Business Insights

- **Sales Performance:** Northwind Traders received 809 orders and sold around 51,000 product units.
- **Customer Analysis:** The business served a total of 91 customers**.**
- **Freight Analysis:** Total freight cost was 63.96K, with an average cost of 79.05.
- **Order Trends:** 2014 had the highest number of orders, while 2013 had the lowest.
- **Category Performance:** Beverages had the highest sales, while Confections had the lowest sales.
- **Employee Performance**: Margaret Peacock sold the highest quantity, followed by Janet Leverling and Nancy Davolio.
- **Business Growth:** Sales and orders changed across different years, categories, and employees, showing areas where the business can improve.

Business Recommendations

- **Product Category Planning:** Focus on Beverages and improve low-selling categories through discounts and offers.
- **Order Planning:** Check previous orders and maintain enough stock to meet customer needs.
- **Regional Performance:** Improve sales in low-performing regions by attracting more customers and providing special offers.
- **Employee Performance:** Appreciate top-performing employees and provide training to help others improve.
- **Monthly Order Activity:** Offer discounts during low-order months, especially June, to increase orders.
- **Customer Coverage**: Attract new customers and maintain good relationships with existing customers.
- **Freight Management:** Reduce delivery costs by choosing better and cheaper shipping methods.

Northwind Traders should focus on improving low-performing categories and regions, increasing customer coverage, supporting employee performance, planning monthly orders, and controlling freight costs to achieve better business growth and profitability.

Conclusion

The Northwind Traders Dashboard provides useful insights into sales, orders, customers, products, and employee performance. It helps identify business strengths and areas for improvement. Overall, the analysis supports better decision-making, improved business efficiency, and future growth.
